PROFESSIONAL EXPERIENCE

Data Processing Inc., Lawton, OK   Sep 2016 – Present
Web Developer

- Created and supervised a new locations page using Google Map APIs and JavaScript for around 5K customers to find the nearest branches more efficiently.
- Assisted Web Master daily with in-house updates by adding, modifying, and removing branch closure listings, banners, text, image carousels, forms, branch locations, and branch hours.
- Developed a new bank debit card request web form for branch customers cutting request to delivery times by 20 percent.
- Wrote documentation for training around 20 new and existing team members per year in company standards and best practices in C# web design, HTML, CSS, and JavaScript reducing the learning time by an average of 16 days.
- Created 12 in-house web pages utilizing C# Web Apps and SQL Server for workers to enter various data points, including ACH (Automated Clearing House) reports, Batch count, and EOD (End of Day) daily reports for recording transactions for each branch.

Scoggins Realty (Part-Time), Lawton, OK   Aug 2010 – Present
Web Master

- Created ten mock website designs and landing pages for Scoggins Realty and implemented websites on the hosting site, including rebuilding the entire website, adding an in-house website, and incorporating an analytics page.
- Ensured the perfect user experience for visitors and increased the number of 5-star UX/UI reviews by 135% by creating accessible, responsive, and functional user interfaces.
- Designed a user experience that fetched, parsed, and formatted analytic data and relayed it into React components.
- Increased the efficiency by 72% by eliminating process bottlenecks by assigning scores to cost, time, and compliance issues in collaboration on the Complexity Score tool.

Tu-Familia Restaurant (Part-Time), Lawton, OK   Aug 2020 – Present
Web Master

- Designed and implemented the company's first website with full responsive features viewable on any device using HTML5, CSS3, SaaS, JavaScript, and Node.js.
- Maintain the website with price changes and add new items to the menu.
- Linked the website to the existing Facebook page.
